To Whom It May Concern:

The demand to meet the growing needs of an increasingly diverse patient population occupies a significant portion of our communication activities. In particular, our efforts to communicate through our print material in multiple languages are a constant challenge.

Precision Language Services is one of our partners helping us meet that challenge. All our experiences have been good. The service is fast, the people are knowledgeable and friendly and the finished product is accurate and well presented. It is especially helpful to us to send and receive translations in final artwork form and in the softwares we use.

As we continue to address the issues of diverse languages at St. Vincent Hospital, it's reassuring to have the resources of Precision Language Services with us.

Sincerely,

Jim Reck, Director  
Marketing Communications
